\*Based on a national sample of 1,016 U.S. larger private and community foundations (including 800 of the 1,000 largest ranked by total giving), grants of \$10,000 or more. For community foundations, only discretionary grants are included. Grants to individuals are not included in the file. The search set includes all grants to recipient organizations classified in this topic area and grants to other recipient types for activities classified in this topic area. Grants may therefore be included in more than one topic table, e.g., a grant to a university for its arts program is included in Education, Higher Education, and Arts.

Note: Public Health grants are also included in the Health table.
